

Attachments for Sweepers

Attachment for Sweeper - Lift trucks made by AUSA, offer great functionality and are very popular for their ergonomic, compact and highly modular design. They provide versatility and stability when handling awkward or really heavy loads on the jobsite, while being very safe to control. With regards to various forklifts, AUSA models have a large diameter of their wheels that helps to guarantee favorable load suspension in the cabin and in the forks. This allows the forklift to produce an optimum working productivity over uneven and variable surfaces.

AUSA company head office is located in Manresa, Spain which is situated in the interior of the province of Barcelona. The production factory is also at this location and features a total surface area of over sixty four thousand square meters. AUSA has subsidiaries situated in the France, Florida, China, UK, Germany and Madrid. The company exports over sixty percent of the machines they make and advertises its goods throughout 225 distributors all over seventy nations.

Each of the AUSA forklifts come standard outfitted with an automatic hydrostatic transmission. This offers accuracy of movement and automatic braking in deceleration of the forklift which gives this equipment an additional level of productivity and safety. The hydrostatic transmission enables the one operating it to quickly adjust to the lift truck that is important if the load is not easy to handle and when terrain conditions are difficult.

AUSA forklifts provide a special cabin design like no other obtainable. It is frontal folded in order to make it much easier to access for periodical maintenance. These highly modular cabins also come in open, soundproof closed, or semi-closed. For northern weather heated cabins are an alternative, plus, air conditioning is incorporated in a back post of the cabin. Various grips, attachments and tire widths are even accessible to suit whichever of the lift truck models.

The world's best in compact equipment, AUSA also specializes in tool carrier vehicles, urban sweepers and site dumpers. With sales and service all around seventy countries within 5 continents and more than 200 sales depots all around the globe, AUSA is an industry leader.
